

The CrICro Puzzle Missions.

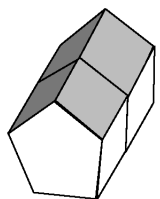

Look at these fantastic designs ... there are many nice and surprising puzzles to make. With only one plate you can make a cube puzzle (use 6 square pieces) , a HyperBox (5 square pieces + 2 pentagones) or the flat puzzle again in the frame. With more colors you can look for cube combinations (see 10, 11, 12 and more)or hyper combinations (see 14 and up). All missions can be made with the full six-color set of the CrICro puzzles. All 12 pentagones make together the *incredible, dodocahedronic* **HyperComet** (see 13)

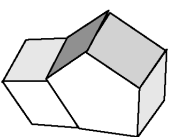

1. Multicolor
Cube

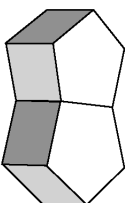

2. Multicolor
Hyperbox

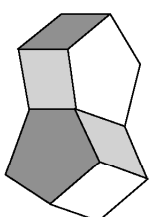

3. HyperBeam
(Rd/Gn)

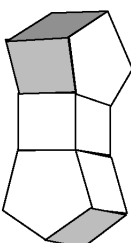

4. HyperCube
(Yw/Be)

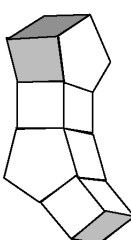

5. Double Hyperbox
flat (Yw/Bk)

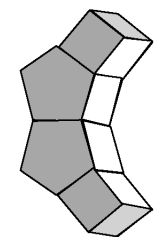

6. Double HyperBox
Twister (Rd/Gy)

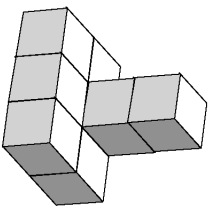

7. HyperCubeBox
Twister (Rd/Yw/Bk)
