Description: TOPSTAR is a EVA-plate with two pieces (X and Y) which make together a star which is thrown. The circles in the plate must been thrown around the arms. That way prizes, points or other values can be won or missions given. This is a table game or an out-door game but can also be used on water since the star floats.
The special star can fall in eight positions, each time bringing other arms up. These can have points, missions, etc.

TOPSTAR (Large) **REF: TS-L**
Thickness: 4 mm size (160 x 180 x 4) mm
E.V.A. Foam: Standard colors
Printing: 1 color included
