TOPSTAR (Small model)
REF: TS-S

Small version versus large star

Description: TOPSTAR is a EVA-plate with two pieces (X and Y) which make together a star which is thrown. The circles in the plate must been thrown around the arms. That way prizes, points or other values can be won or missions given. This is a table game or out-door/beach game but can also be used in water since the star and the circles float.
The special star can fall in eight positions, each time bringing other arms up. These can have points, missions, etc.

TOPSTAR (small) **REF: TS-S**
Thickness: 4 mm size (120 x 135 x 4) mm
E.V.A. Foam: Standard colors
Printing: 1 color included
